Best Practices on Community Oriented Diseases (14/03/2024)

Community oriented diseases awareness program is an activity of our institute to provide social platform to our students as upcoming pharmacist, to know the need of society about health and hygiene, what is the actual roll of health professional towards the community. Poor hygiene and improper water, sanitation, and food supply strategies, in addition to inadequate care of wounds and injuries, can create an environment polluted with bacteria and viruses. The pharmacists being healthcare professional can be involved in disease prevention and control in many ways. For example, they can help to develop institutional screening programs to check immunization status and identify undiagnosed medical conditions (e.g., hypertension, diabetes, hyperlipidemia, depression, substance abuse, behavioral health issues). Reducing the spread of diseases, advocating the prudent application of antimicrobial drugs, and educating medical personnel, patients, and the general public are all duties of pharmacist in the society. Guest Lecture on Environment Conservation (09/02/2024)

Wildlife Conservation can be defined as preventing wildlife from uneven killing and poaching. It also involves the practice of making people aware by telling them about the importance of wildlife. Wildlife Conservation is very important to maintain the food chain and ecosystem balance. In this view a guest lecture on the topic “**Indian religious festivals – Re-learning nature conservation value to stop wildlife crimes**” has been organized in the college on 09th February 2024 at 02:30 pm. Dr. Suruchi Pande Vice chair Ela Foundation Pune gave valuable guidance on our immediate responsibility to safeguard the ecosystem's natural splendor and to develop a system of coexistence with every living creature on earth. While the world's nations must be very specific in terms of wildlife conservation, the amount of wildlife is diminishing day by day. Developing protective areas such as national parks, wildlife sanctuaries to protect the animals in their natural habitat. The endangered and vulnerable species can be kept in captivity in places such as zoos and bred to increase their population. The cutting of forests should be strictly prohibited. Our faculty members and students are greatly benefited and are sensitized from her views and guidelines. The program ended with a vote of thanks by Mr. Nilesh Bhosale. The activity conducted under the guidance of Principal Dr. R.S. Chavan.
