Report on Tree Plantation Activity

Occasion: World Environment Day 2025

Theme: “एक पेड़ माँ के नाम 2.0”

Date: 30th June 2025

Organized by: NSS Unit.

On the occasion of World Environment Day, observed globally on 5th June, the National Service Scheme (NSS) unit of college organized a **Tree Plantation Drive** under the national initiative ‘एक पेड़ माँ के नाम 2.0’, launched by the Ministry of Environment, Forest and Climate Change.

In alignment with this campaign, the NSS unit undertook a focused initiative by planting various medicinal plants in **the** college’s medicinal garden, thereby reinforcing the importance of traditional medicinal knowledge and biodiversity conservation. The selected plant species are known for their therapeutic properties and are part of the curriculum for pharmacy students, offering both educational and ecological value.

The event was graced and guided by Dr. Rajashree Chavan, Principal, who emphasized the role of students and academic institutions in conserving natural resources and promoting green practices. She inspired volunteers to consider tree plantation not just as an annual event, but as a lifelong responsibility towards nature.

Faculty members, NSS Program Officers, and students actively participated in the plantation drive. NSS volunteers prepared planting beds, watered the plants, and ensured proper spacing and care for each sapling. Informational signboards were placed next to each plant to educate visitors and students about their medicinal use and importance.

This activity added value to the institutional green campus policy and strengthened the commitment of the NSS unit to environmental causes.
