NA

All my experience is best till now

Teaching improve

I don't want to

Competative environment needed

Very nice teaching

More examples

Should give practical knowledge to improve understanding

1.Enhance Practical and Industry-Oriented Training

Suggestion: Strengthen laboratory sessions with real-time case studies, introduce simulation-based learning (e.g., formulation development, regulatory documentation), and organize regular industrial visits or guest lectures from industry professionals. This will bridge the gap between academic learning and industry expectations.

2. Promote Interdisciplinary and Research-Based Learning

3. Organize visits to a broader range of industries including formulation and development units, API manufacturing plants, CROs (Clinical Research Organizations), regulatory consultancy firms, and quality control labs. This will help students understand multiple career paths and real-time processes. Collaborate with Industry for Skill-Based Workshops During Visits

Give respect

notes should be provided

Don't ask for percent

Satisfied

1.Overall conduct and teaching techniques are good

2.Not just academics but also encouraged other curricular activities such as dance and sports with team building activities

3.Strict on attendance which is good but at certain point should wave off and should encourage students for internships, hands on training, apprenticeship etc activities which will boost their educational as well as professional life.

Understanding with students

Noo

Increase in quality of communication and all various extra caricular activities

Should use the smart board for visual learning
